CAREER OBJECTIVE

Artificial Intelligence and Data Science undergraduate with hands-on experience in Machine Learning, Data Analysis, and AI-powered applications. Proficient in Python and SQL, seeking a Machine Learning or Data Science internship to apply technical skills and gain industry experience.

EDUCATION

L. J. Institute of Engineering and Technology
B.Tech in Artificial Intelligence & Data Science

Aug. 2024 – May 2028
Ahmedabad, India

PROJECTS

Cyber Threat Detection System | Python, Streamlit, SQLite, Pandas, REST APIs

- Developed an AI-powered cybersecurity platform to analyze URLs, files, emails, and phone numbers for potential threats.
- Implemented URL monitoring, file inspection, content analysis, and automated threat scoring mechanisms.
- Built interactive dashboards for monitoring threat activity and security analytics.
- Integrated SQLite database for threat storage, reporting, and trend analysis.

TalentIQ – AI Resume Analysis Platform | Python, NLP, Machine Learning, SQLite

- Developed an AI-powered resume analysis platform with ATS scoring and personalized improvement suggestions.
- Implemented NLP techniques to extract candidate skills, experience, education, and project details from resumes.
- Generated ATS-friendly recommendations to improve resume quality and recruiter visibility.
- Designed an interactive dashboard for resume insights and performance analysis.

Resume Builder – QR Sharing | Node.js, Express.js, JavaScript, SQLite

- Built a dynamic resume builder with real-time resume preview and PDF generation functionality.
- Integrated QR-code-based resume sharing for seamless recruiter access and profile sharing.
- Designed a responsive and user-friendly interface for creating and managing professional resumes.
- Implemented backend APIs for storing, retrieving, and updating resume information efficiently.

DataPulse Analytics Dashboard | Python, Pandas, NumPy, Plotly, Streamlit

- Built an interactive analytics dashboard for data visualization and business intelligence.
- Performed data cleaning, preprocessing, and exploratory data analysis on structured datasets.
- Created dynamic visualizations and trend-analysis reports to support data-driven decision making.
- Developed filtering and reporting modules for enhanced data exploration and user experience.

SKILLS

Languages: Python, Java, JavaScript, SQL

ML/Data: Scikit-Learn, TensorFlow, NLP, Pandas, NumPy, EDA, Data Visualization

Web: HTML, CSS, Bootstrap, Node.js, Express.js, REST APIs

Databases: SQLite, MySQL, MongoDB

Tools: Git, GitHub, VS Code, Jupyter Notebook, Streamlit

Core: DSA, OOP, DBMS, MLOps Fundamentals

CERTIFICATIONS

- IBM Exploratory Data Analysis for Machine Learning
- Generative AI Fundamentals
- HTML, CSS & JavaScript Certification
- Arbitrum Builder Labs Web3 Workshop
